### Music Classes for Toddlers, Preschoolers and Ensembles

- Early Music classes give the opportunity to children to develop their primary musical knowledge, their creative potential, along with developing their social skills and exploration of their emotions. In addition, through these classes the children can enhance their confidence and memory skills.
- The aim of these classes is to absorb music characteristics and skills through games, musical stories, aural musical listening, exploration of instruments through rhythms, sounds, and melodies.
- Children of ages 6 months – 5 years old are exposed to skills which are applied in the Musical Ensembles classes for children 5 - 8 years old. Thus when the children reach the ages of 5 - 8 years old are ready to apply these skills through primary musical staves and notation, musical vocabulary, and values.
- For more information about the classes please refer to the relevant leaflet of our department where details on the programme of each class is explained accordingly for each group.
- For the students who study in any other department at the Future Academy Of Arts, are entitled to a reduction for the tuition of this music class fees for the academic year 2026-27.
- For the availability of hours and for arrangement a personal meeting, please contact the Secretary's office at **70088812**.
